

RURAL WASHINGTON VALUES

Quality
OF LIFE

Old Fashioned Values define our Quality of Life.

Things are simpler in the rural parts of Washington State. That's why we live here. We like life being simpler. We value neighbors helping neighbors, strong support in the community and an appreciation for the great outdoors. And more than ever, we need people in public office who support rural values, rural concerns and rural issues.

People like Steve Smith who support Quality of Life.

As your City Councilor, Steve Smith has proven his willingness to defend the values of rural Washington State. Values like:

- Building better communities with good schools and safe neighborhoods
- Ensuring economic vitality
- Enhancing options for families to use their land
- Providing housing opportunities

Let Steve Smith know you appreciate his dedication and willingness to stand up for these important issues. For more information about the Quality of Life campaign, go to www.warealtor.com.

**Thank you,
Steve Smith.**
candidate for City Council, for not forgetting the simple things - our Quality of Life.
