

As a candidate for office, I, _____, recognize the need to sustain and enhance the quality of life enjoyed by citizens in our community. I believe we can build better communities by supporting quality growth, seeking sustainable economies and providing housing opportunities that embrace the environmental qualities we cherish, while protecting property owners. That's why I pledge to commit to an agenda that promotes quality commercial and residential growth, and encourages economic vitality within our community.

During my term of office, I will work to build better communities:

Ensure economic vitality by adopting measures that encourage economic development, promotes a healthy and sustainable economy, increases the number of jobs, the tax base, purchasing power, diversity and the availability of goods and services.

Provide housing opportunities by ensuring that planning policies address a balance between jobs and housing, accommodate projected growth, provide for a range of housing choices at affordable price ranges, reduce the regulatory burdens that increase the cost of housing, and provide sufficient buildable land capacity sufficient to accommodate growth.

Build better communities by prioritizing capital budget expenditures to sufficiently fund the transportation and infrastructure (roads, water, sewer, etc.) that provides the framework for our community's quality of life, and lays the essential groundwork for accommodating quality commercial, industrial and residential growth.

Preserve our environment by providing parks and recreational opportunities, open space, clean air and water, while compensating property owners when property is reduced in value by government limitations.

Protect property owners' ability to own, use and transfer property.

Respecting the judgment of my fellow citizens of our community as I seek their mandate to sustain the REALTORS® Quality of Life principles, I hereby sign my name to this Quality of Life Pledge.
